

Kalori The Bulletin of the Rotary Club of Berowra Inc.

Kalori means the message stick used by the Aboriginal Tribes which lived in the sandstone ranges surrounding the Hawkesbury River. Berowra is situated above a major area of the Hawkesbury. Berowra Waters – one of Sydney's well known beauty spots – is depicted on our Club Banner.

Mothers Day Plant Sale Report

Some anxious moments with the paperwork prior to the delivery at Hornsby Shire Council. We will know the requirements for next time!

Hunt Reserve had been mown. **Saturday 7 May 2016** dawned as a beautiful day —

sufficient helpers — more would have been better. Thanks to five Rovers, in particular Justin Bakker who was there all day. Jennah Bakker was a great help in a variety of roles. Associate Rotarian Susan Hunter was, as usual, excellent!! She also supplied 26 succulent pots (all sold). Fred O'Connor — a reliable sausage sizzler, plus followed 'all the HSC Rules and Regs'. Steve Hopwood supported the BBQ. Associate Rotarian Jim Fairlie came to support and was able to help with the efpas machine thus giving Treasurer Jeanette some respite. Nola Van Huissteden was a good help with sales.

New suppliers Cleetondale, sold 169/360 native plants; Bill Parker very happy 53/80 camellias and also very helpful —calmly waking the intoxicated person in a car which was in the way, and driving his car around the corner out of harms, and our, way. Max Lovegrove contributed his home grown pineapple plants—all sold, created interest! Orchid Society — co located with us, and provided a beautiful display, most appeared to be sold.

Packup was efficient - several unsold plants went home with Jan and Frank — to be disposed of at the Garden Club. Susan H also took some to work to sell, she also stayed with Jan while Frank unloaded at home and back again! Tom and Gil returned the BBQ Trailer; Tom and Trevor took down all the signs, although one has been lost!

GOYANG CITY, Korea (31 May 2016) — Rotary today committed an additional \$35 million in grants to support the global effort to end polio – donating a total of \$70 million in 2016 alone.

The announcement comes on the heels of significant strides made against the paralyzing disease, leaving just two polio-endemic countries – Afghanistan and Pakistan. If current progress continues, 2016 may mark the last case of wild poliovirus. "While we are experiencing unprecedented success against polio, it is imperative to maintain high immunity and quality surveillance in all countries of the world until polio is fully eradicated," said Michael K. McGovern, chair of Rotary's International PolioPlus Committee. "We must protect the progress in polio-free parts of the world, as well as stopping transmission in Pakistan and Afghanistan."

Speaking today at Rotary's annual international convention, Dr. Rebecca Martin, Director of the US Centers for Disease Control and Prevention's Center for Global Health, emphasized the importance of remaining vigilant. "All countries remain at risk for importation of poliovirus as long as it is circulating in Pakistan and Afghanistan", said Martin. "Now is the time the world must act rapidly and together in stopping any outbreaks of polio. Countries need to detect virus and respond with vaccination through quality immunization campaigns."

To sustain this progress, and protect all children from polio, experts say \$1.5 billion is urgently needed. Without full funding and political commitment, this paralyzing disease could return to previously polio-free countries, putting children everywhere at risk. Rotary has contributed more than \$1.5 billion and countless volunteer hours to fight polio, with Korean Rotary clubs donating more than \$14.6 million to the effort. In addition to contributing funds, Korean Rotary members have traveled at their own expense to immunize children against polio in India. Through 2018, every dollar Rotary commits to polio eradication will be matched two-to-one by the Bill & Melinda Gates Foundation up to \$35 million a year.

Rotary launched its polio immunization program PolioPlus in 1985 and in 1988 became a spearheading partner in the Global Polio Eradication Initiative with the World Health Organization, UNICEF, U.S. Centers for Disease Control and Prevention, and was later joined by the Bill & Melinda Gates Foundation. Since the initiative launched, the incidence of polio has plummeted by more than 99.9 percent, from about 350,000 cases a year to 16 confirmed to date in 2016.
